OFFERING MEMORANDUM

DATRI XO SLLC

A Delaware Series LLC
Securities Offered: Series Limited Liability Company Interests
Minimum Initial Subscription: \$150
Maximum Subscription: \$25,000

Manager:

Datri xo SLLC
205 East 42 Street, New York, NY 10017
Telephone: 646 436-3677

THESE SECURITIES ARE SPECULATIVE, INVOLVE A HIGH DEGREE OF RISK, AND HAVE NOT BEEN REGISTERED WITH OR APPROVED BY ANY FEDERAL OR STATE REGULATORY AUTHORITY. THEY ARE SUBJECT TO RESTRICTIONS ON TRANSFERABILITY AND RESALE AND MAY NOT BE TRANSFERRED OR RESOLD EXCEPT AS PERMITTED UNDER APPLICABLE LAW AND THE FUND'S GOVERNING DOCUMENTS.

The date of this Offering Memorandum is November 21, 2020.

Confidential - Datri xo SLLC

Confidential Private Placement Offering Memorandum

Datrixo SLLC.

USD \$120,000 Datrixo SLLC Preferred Equity shares to be acquired pursuant to Subscription Agreements

Datrixo.com, SLLC. (the “**Holding Company**” or the “**Company**” or “**Datrixo SLLC**”).

This Memorandum has been prepared by Datrixo SLLC for use by certain **qualified accredited potential purchasers** to whom the Company is offering (the “**Offering**”) the opportunity to purchase the right to acquire, if issued by the Company in the future, Datrixo SLLC Preferred Equity equity units or shares, par value USD \$150.00 (the “**Equity units**” or “**shares**”).

The foregoing right to acquire Equity units or shares, if issued by the Company, will be embodied in, and documented by, (1) a Subscription Agreement with respect to the Equity units (as may be amended, restated and/or otherwise modified from time to time, a “**Subscription Agreement**” and, (2) a “**SAFE-T Notes**”, and together with the Equity units, the “**Securities**”) to be entered into between the Company and qualified purchasers purchasing such Securities in the Offering.

The Company expects to enter into Subscription Agreements on an ongoing basis until on or about December 1, 2021 (as the same may be extended or earlier terminated, the “**Expiration Date**”). If the Equity units are initially issued by the Company in the future, the date of such issuance, if any, is referred to as the “**Issuance Date**.” The Company may issue up to \$120,000 of Equity units, subject to increase as described in this Memorandum. The Company may choose to offer Equity units in the form of equity tokens (digital securities), it can be a subject to increase as described in this Memorandum.

There can be no assurance that Datrixo SLLC will ever issue the equity tokens. If equity tokens are not issued, purchasers in the Offering will remain the stakeholders of the company but might not receive any refund or return of their investment specifically from the equity units features. If equity units are issued, investors may never receive any benefit from holding the equity units beyond the company stakeholder benefits. Equity token holders are not entitled to any utility from the Token. A legally compliant trading market for the equity units and/ or equity tokens may never be developed and peer-to-peer transfers of equity units or equity tokens will not be permitted unless and until Token holders are notified otherwise by the Company, which may require holders to hold their Equity units indefinitely. An investment in this Offering is highly speculative, and you should only invest if you are prepared to lose your entire investment.

Unless the context requires otherwise, in this Memorandum the terms the “**Company**” and “**Datrixo SLLC**” refer to Datrixo.com, SLLC., together with its subsidiaries, and all dollar (\$) amounts set forth herein refer to United States dollars. The Company currently is a Delaware SLLC.

The offered Securities have not been, and will not be, registered under the Securities Act of 1933, as amended (the “**Securities Act**”) and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons except pursuant to an exemption from, or in a transaction not subject to, the registration requirement of the Securities Act. Accordingly, the Securities are being offered and sold only (1) to “accredited investors” (as defined in Rule 501 of Regulation D under the Securities Act) in compliance with Rule 506(c) of Regulation D under the Securities Act and (2) in offshore transactions to persons other than “U.S. persons” (as defined in Regulation S under the Securities Act) in reliance upon Regulation S under the Securities Act.

None of the Securities and Exchange Commission (the “SEC”), any state securities commission, any foreign securities authority or any other federal, state or foreign regulatory authority has approved or disapproved of these Securities or determined if this Memorandum is truthful or complete. Any representation to the contrary is unlawful and may be a criminal offense. No action has been taken in any jurisdiction to permit a public offering of the Securities. Investing in the Securities involves a high degree of risk. You should carefully consider the risks summarized under “Risk Factors” of this Memorandum for a discussion of important factors you should consider before purchasing Securities.

The date of this Memorandum is November 21, 2020.

IMPORTANT INFORMATION FOR POTENTIAL PURCHASERS

i

This Memorandum is directed only to **accredited** or **qualified potential purchasers** (further “qualified”) to whom it is made available or delivered by, or on behalf of, the Company, and it has been prepared solely for use by prospective purchasers of the Securities. Any reproduction or distribution of this Memorandum, in whole or in part, or the disclosure of its contents, without the prior written consent of the Company, is prohibited. By accepting this Memorandum, you agree to use this Memorandum and its contents solely in connection with your evaluation of a potential investment in the Securities. Any other use of this Memorandum is prohibited.

To purchase Securities, each participating qualified purchaser is required to execute their own Subscription Agreement or SAFE-T Notes. This Memorandum contains a summary of the material terms of the Securities. However, the summary of the Securities in this Memorandum does not purport to be complete and is subject to and qualified in its entirety by reference (i) in the case of the Subscription Agreement or SAFE-T

Notes, to the actual text of the Subscription Agreement or SAFE-T Notes and to be executed by each qualified purchaser, substantially in the form attached as **Annex** hereto to the Agreement or SAFE-T Notes, and (ii) in the case of the Equity units or shares, adhered to the terms of the Delaware State law as part of the Company's Certificate of Series LLC (or the "**Certificate of Formation**"), the material terms and conditions of which are summarized in **Annex** attached hereto (the "**Token Terms and Conditions**").

The Equity Unit (Share) Certificate and the Token Terms will be available upon request from the Company at no cost. If any of the provisions of the Securities are consistent with or contrary to the descriptions or terms in this Memorandum, the terms of the Subscription Agreement or SAFE-T Notes (as summarized in the Token Terms and Conditions), as applicable, will control. Furthermore, certain material rights described in the Token Terms and Conditions, such as the dividends which may be declared with respect to the Equity units, are subject to the sole discretion of Datrixo SLLC's board of directors (the "**Board**"), in each case without the consent of holders of the Equity units (shares).

The Company reserves the right in its sole discretion to reject any commitment in whole or in part by not executing a Subscription Agreement or SAFE-T Notes. In the event that the Offering is terminated or withdrawn, all funds received in connection with the Offering will be promptly returned to the respective potential purchasers. Prior to the Expiration Date, the Company reserves the right to modify the terms of the Offering and the Securities described in this Memorandum in its sole discretion. If the Company amends the terms of the Offering in any material respect, it will provide potential purchasers that have previously funded their commitment at least 3 business days to withdraw from the Offering. Upon any such withdrawal by a purchaser, such withdrawing purchaser's Subscription Agreement will terminate and all funds received in connection with the Offering from such purchaser will be promptly returned to such purchaser without interest. Such refund will be paid in the same currency and in the same amount, without interest, as paid by such Purchaser in accordance with the procedures contained in **Annex** attached hereto. For example, an investor who funded \$10,000 USD will be refunded \$10,000 USD.

The issuance of the Equity units (or shares), if any, will be exempt from the registration requirements of the Securities Act pursuant to Section 3(a)(9) of the Securities Act or another available exemption. Upon consummation of such exchange, each applicable Subscription Agreement will immediately terminate in accordance with its terms.

The Company will not be registered as an investment company under the United States Investment Company Act of 1940, as amended (the "**Investment Company Act**"). Consequently, purchasers are advised that they will not be afforded any of the protections of the Investment Company Act.

ii

Confidential - Datrixo SLLC

Page 4 of 23 Datrixo SLLC PPM

The Securities described in this Memorandum are subject to legal and contractual restrictions on transferability and resale. For more information on such restrictions, please see the section titled "Notice to Purchasers."

An investment in the Securities involves a high degree of risk, volatility and illiquidity. A prospective purchaser should thoroughly review the information contained herein and the terms of the Securities and carefully consider whether an investment in the Securities is suitable to the purchaser's financial situation and goals. Purchasers should be aware that they will be required to bear the financial risks of this investment for an indefinite period of time and should be prepared to lose the full amount of their investment.

No person has been authorized to make any statement concerning the Company or the sale of the Securities discussed herein other than as set forth in this Memorandum, and any such statements, if made, must

not be relied upon as having been authorized by the Company. Moreover, purchasers are advised that they should rely solely on the information contained in this Memorandum in considering whether to invest in the Securities. The Company takes no responsibility for, and can provide no assurance as to the reliability of, any information that has been provided to potential purchasers outside of this Memorandum.

Purchasers should make their own investigations and evaluations of the Securities, including the merits and risks involved in an investment therein. Prior to any investment, the Company will give purchasers the opportunity to ask questions of, and receive answers and additional information from, the Company concerning the provisions of this Offering, the Securities and other relevant matters, to the extent the Company possesses the same or can acquire it without unreasonable effort or expense. Purchasers should inform themselves as to the legal requirements applicable to them in respect of the acquisition, holding and disposition of the Securities, and as to the income and other tax consequences to them of such acquisition, holding and disposition.

This Memorandum does not constitute an offer to sell, or a solicitation of an offer to buy, any Security in any jurisdiction in which it is unlawful to make such an offer or solicitation. Each prospective purchaser must comply with all applicable laws and regulations in force in any jurisdiction in which it receives, purchases, offers or sells the Securities and must obtain any consent, approval or permission required for the purchase, offer or sale by it of the Securities under the laws and regulations in force in any jurisdiction to which it is subject or in which it makes such purchases, offers or sales. The Company will not have any responsibility in connection with obtaining, or failing to obtain, any such consents, approvals or permissions. The Company is not making any representation to any purchaser regarding the legality of an investment in the Securities by such purchaser.

By their participation in the Offering, purchasers will be deemed to have agreed that their participation will constitute their representation, warranty, acknowledgement and agreement to all of the statements about purchasers under the section titled “Notice to Purchasers.” Potential purchasers should carefully read that section of this Memorandum.

Prospective purchasers are not to construe this Memorandum as investment, legal, tax, regulatory, financial, accounting or other advice, and this Memorandum is not intended to provide the sole basis for any evaluation of an investment in the Securities. Prior to entering into a Subscription Agreement, a prospective purchaser should consult with its own legal, investment, tax, accounting, and other advisors to determine the potential benefits, burdens, and other consequences of an investment in the Securities.

Cautionary Statements Regarding Forward-Looking Statements

This Memorandum contains forward-looking statements, including statements relating to the Company’s operations and products. Other statements in this Memorandum, including words such as “anticipate,” “may,” “believe,” “could,” “should,” “estimate,” “expect,” “intend,” “plan,” “predict,” “potential,” “forecasts,” “project,” and other similar expressions, also are forward-looking statements.

Confidential - Datrixo SLLC

Page 5 of 23 Datrixo SLLC PPM

Forward-looking statements are made based upon management’s current expectations and beliefs concerning future developments and their potential effects on the Company. Such forward-looking statements are not guarantees of future performance. The following important factors, and those important factors described elsewhere in this offering memorandum, including the matters set forth under the section entitled “Risk Factors,” could affect (and in some cases have affected) the Company’s actual results and could cause such results to differ materially from estimates or expectations reflected in such forward-looking statements:

- there can be no assurance that the Equity units or shares will ever be issued and Equity units, if issued, will be subject to extensive legal and contractual transfer restrictions to comply with our regulatory obligations;

- if Equity units or shares are issued, the Company does not expect to pay any dividends for some time into the future and, at issuance, Equity Token holders will not have access to trading markets, and neither may ever develop;
- the tax treatment of the Securities is uncertain;
- the potential application of U.S. laws regarding investment securities to the Securities is unclear;
- (equity) token blockchain-based transactions if any may be irreversible and losses due to fraudulent or accidental transactions may not be recoverable;
- technological difficulties experienced by the third-party Token Trading System or Systems, if developed, may prevent the access or use of a purchaser's Equity units or equity token or shares;
- there is no assurance that purchasers of the Securities will receive a return on or of their investment;
- the Company's management will have broad discretion over the use of the net proceeds from this Offering;
- holders of the Securities generally will not have voting rights and generally will have no ability to influence the decisions of the Company;
- the Securities may be subject to registration under the Exchange Act if the Company has assets above \$10 million and more than 2,000 purchasers participate in the Offering;
- purchasers may lack information for monitoring their investment;
- the Company may be forced to cease operations;
- the Securities have no history and will rank junior to the Company's debt obligations;
- the Company does not expect there to be any market makers to develop a trading market in the Equity units (shares);
- only certain persons and entities are able to acquire Securities which might limit the secondary market for Securities;
- there is uncertainty as to what regulatory regime will apply to the Equity units (shares) and the potential application of U.S. laws regarding virtual currencies and money transmission to the Equity units (shares);
- the Company may not successfully develop, market and launch the Token Trading System;
- the Token Trading System may not be widely adopted and may have limited users;

Confidential - Datrixo SLLC

- some market participants may oppose the development of distributed ledger or blockchain-based systems like the Token Trading Systems and that will lead to the limited liquidity of equity units (shares);
- the regulatory regime governing blockchain technologies, cryptocurrencies, digital assets, digital equity, the Existing Datrixo SLLC software products and offerings of digital assets, such as the Securities, is uncertain;

- the slowing or stopping of the development or acceptance of blockchain networks and blockchain assets would have an adverse material effect on the successful development and adoption of the Securities;
- the prices of blockchain assets are extremely volatile and fluctuations in the price of digital assets could materially and adversely affect the Company's business, and the Securities may also be subject to significant price volatility;
- the Company has limited operating history, which makes it hard to evaluate its ability to generate revenue through operations;
- the Company was, to date, self-funded by its founders and if additional discretionary funding were not provided, it would have an adverse impact on the Company's operations and financial conditions;
- technology relied upon by the Company for its operations, including the Existing Datrixo SLLC Software Products, may not function properly;
- the Company's business is subject to complex and evolving U.S. and foreign laws and regulations regarding privacy, technology, data protection, and other matters;
- the popularity of cryptocurrencies and crypto securities offerings may decrease in the future, which could have a material impact on the Company's products, operations and financial conditions;
- the Existing Datrixo SLLC Software products and any products the Company might consider to develop in the future has been and will be reliant on the continued availability of certain key employees;
- the Company may face substantial competition as well as the risk that one or more competitors may obtain patents or other protections covering technology critical to the operation of the Existing Datrixo SLLC products.

All forward-looking statements in this Memorandum speak only as of the date hereof. The Company expressly disclaims any obligation or undertaking to disseminate any updates or revisions to any forward-looking statement contained herein to reflect any change in its expectation with regard thereto or any change in events, conditions, or circumstances on which any such statement is based.

THIS OFFERING IS LIMITED SOLELY TO ACCREDITED OR/AND QUALIFIED INVESTORS (AS DEFINED IN REGULATION D UNDER THE SECURITIES ACT) AND IN OFFSHORE TRANSACTIONS (AS DEFINED IN REGULATION S UNDER THE SECURITIES ACT) TO NON-U.S. PERSONS (AS DEFINED IN REGULATION S UNDER THE SECURITIES ACT) WHO ARE NOT PURCHASING FOR THE ACCOUNT OR BENEFIT OF A U.S. PERSON. ONLY PERSONS OF ADEQUATE FINANCIAL MEANS WHO HAVE NO NEED FOR LIQUIDITY WITH RESPECT TO THIS INVESTMENT SHOULD CONSIDER PURCHASING THE EQUITY SHARES OFFERED HEREBY PURSUANT TO A SUBSCRIPTION AGREEMENT BECAUSE: (I) AN INVESTMENT IN THE SECURITIES INVOLVES A NUMBER OF SIGNIFICANT RISKS (SEE "RISK FACTORS"); (II) THE EQUITY SHARES MAY NEVER BE ISSUED AND (III) NO MARKET FOR THE EQUITY SHARES EXISTS, AND A MARKET FOR THE EQUITY SHARES MAY NEVER DEVELOP.

Confidential - Datrixo SLLC

Datrxio is an artificial intelligence (AI) venture builder and a holding company. Datrxio was registered in the State of Delaware in November, 2020. The company issues and is distributing its equity units (shares) to a few individual stakeholders, some of whom are employees or founders of the Company.

Datrxio SLLC offers investors exposure to the massive growth of the AI market and high capital appreciation potential for their investment. Datrxio SLLC incubates, holds and invests into the private AI technology firms. By investing into the Datrxio equity units, investors will get access to all our high-growth portfolio ventures. We invest our resources to launch the companies that have potential to win the leading market positions in the new markets that were created thanks to the recent advancement in AI technologies development. We selectively invest in the high-growth business models where AI is the key component. Our team's experience in the AI technology business is our great advantage and increases our ability to make each new venture we launch - successful. We invest our technology and intend to continue to invest with an emphasis on equipping our portfolio companies with the cutting edge advantage and to grow the Datrxio portfolio value.

By December 2020, Datrxio has developed a portfolio of three AI technology companies and a pipeline of new ventures. Datrxio portfolio is available to qualified and accredited investors through the private placements into the Datrxio SLLC holding company and by extension, in its high-growth portfolio companies.

Business Model

We are developing proprietary technology for AI rapid development and are a holding company of a number of AI ventures that we've prototyped using that technology and our proprietary process.

To launch a new venture Datrxio prototypes both its technology and its business systems, performs product-market fit surveys, launches the firm officially & legally, and provides IT and managerial help for all our new firms to grow in the initial stages of their development and until the series A funding event or a market exit.

We will finance the future acquisitions for further market expansion from the outside investment made directly into the portfolio ventures from PE, FOs, and our other potential investors and institutional investors.

Because Datrxio is targeting an initial stage of the companies' growth, that makes investments into Datrxio relatively high-risk investments. The Datrxio's - invested companies have small or no track records. There is always a chance that their business will not take-off could go under.

The portfolio holdings are the private firms. Because some of the Datrxio holdings are illiquid securities, a Datrxio's portfolio has subjective fair-value estimates and may experience losses.

Datrxio Equity as Digital Securities - Liquidity

Datrxio will offer investments to a limited number of our investors. Some of Datrxio's holdings are illiquid, but Datrxio itself *is liquid*. Unlike other holdings, hedge funds and VCs funds, Datrxio equity units are

Confidential - Datrxio SLLC

Broker Dealer partners.

In connection with Datrixo's 2020 offering of Preferred shares as digital securities (the "Datrixo Digital Securities"), the Company developed a (blockchain software) referred to as the Datrixo SLLC Issuance and Holding Platform (the "Existing Datrixo SLLC Software Platform"). While the offering of the Datrixo Digital Securities served as a milestone for the issuance and trading of the digital securities in a manner that utilized blockchain technology, the company Securities is subject to legal and other limitations. The Datrixo Portfolio companies may not successfully develop, launch, market or sell their software and commercial products. As a result of early stage of development, Datrixo ventures have not generated substantial or any revenue in some cases from any commercially available blockchain-based applications.

Datrixo Portfolio Ventures:

- **ReRun Datrixo Series LLC "ReRun":** ReRun is an Applied Ai technology company in longevity space. ReRun builds a set of tools to help people organize data around their longevity and healthy life-span and related medical research to benchmark what improvements are possible for a certain age and health conditions and to measure and predict the outcomes of the actions or/and medical interventions on the personal longevity. In addition, we are working on offering the particular proprietary measurement tools and self-management clinical trials in a few crucial & promising longevity research areas such as the use of (medical) Molecular Hydrogen and (medical) Carbon Fullerenes to name a few of our directions. In addition, we have IP ready to seek USPTO "protection". This IP is related to the use of software, and software analytics re particular compounds and combinations to extend longevity. The ultimate goal is to give people knowledge and tools to extend their healthy life-span, and to increase energy and brainpower. The company has been operational since 2018 as a standalone project. The Datrixo SLLC stake in ReRun as of December 1st, 2020 is 90%. The current company valuation is \$500K USD.
- **Brocco Datrixo Series LLC "Brocco":** Brocco is an AI-powered lunch delivery application that automates meal selection, ordering and delivery in one easy workflow. Brocco brings extra flexibility and predictive capabilities to the lunch selection (and food selection) for busy professionals and fitness geeks. The idea is to help improve eating quality with better (science-based) choices while making it easy to plan the next meal. Brocco AI system was first prototyped in 2019. We built the first commercial-grade recommender system in early 2020, that is now being offered paid-free in NY. Next stage commercial systems are under development. We are waiting for approval from Apple to publish the iOS version on Apple store. There is no commercial operation by date. Brocco has 5 stakeholders and has reserved 7% for additional advisors. The Datrixo stake in Brocco as of December 1st, 2020 is 74%. The current company valuation is \$500K USD.
- **HPredict Inc:** Hpredict builds a set of data gathering tools that help retrieve data patterns and rules related to the particular medical areas. The tools can be used as a pipeline for data & rules to feed AI systems, and help people organize data around their health. The ultimate goal is to give people and medical professionals knowledge required for health support. The company has been operational since 2016. While working on developing its proprietary technology products, a company has had paid customers with income around \$160k by date (as of December 1, 2020). The current company valuation is \$200K USD. Hpredict Inc. is being reformed as the Hpredict Datrixo Series LLC "Hpredict". Hpredict has 3 stakeholders. Datrixo stake in Hpredict as of December 1st, 2020 is 72%.

Selected Other Companies, Prior Portfolio Companies and Pipeline of Datrixo Ventures:

Confidential - Datrixo SLLC

- **Crypto Alpha Trading Inc:** The Crypto Alpha Trading Inc (CA)'s first commercially available blockchain-related product is "security equity shares signaling" software (the "STSS"). The STSS Software has been offered to users for 14 months (from October 1, 2018 to December 1, 2019) and was in the customers' testing, which was being conducted through the Telegram channel and company's product portal, with approximately 2,000 users as of December 2019. CA has not yet entered into any commercial licensing agreements. The STSS Software is intended to help holders, investors, issuers and broker-dealers with a stock inventory in the form of the security equity shares to manage their portfolio inventory in order to assist in monitoring of the shares price fluctuations in the U.S. public securities markets. Nevertheless, the Company has been at the forefront of the effort to bring greater efficiency and transparency to the capital markets through the integration of blockchain technology. In the year 2018 we have also participated in a few (blockchain) consulting projects related to use of CA technology by our customers. The total income from company current activity by date was ~ \$50,000 USD. The company has 5 co-founders and shareholders, 4 of them are technology experts and software engineers. To operate CA, we need to process a lot of data, the processing was around \$800/ per month. We have put CA on "freeze" from January 2020 to avoid spending resources on processing. The current company valuation is ~\$500K USD. CA has issued and distributed its shares to a few individual shareholders, some of whom are employees or founders of the Company. If we restore the company operations, the Datrixo stake in CA (as of December 1st, 2020) is 61%.

Recent Developments

White Paper

In December 2019, the Datrixo issued a brief White Paper (the "***White Paper***") describing its history, business goals and certain aspects of the Datrixo technology, software, its holdings and its security Equity shares. The White Paper, which is available by request, is incorporated by reference into, and made a part of, this Memorandum.

Engagement of Placement Agents, Consultants and Other Entities

In connection with the Offering, the Company might engage several entities to facilitate the placement of the Securities and/or to provide consulting and advisory services, including various broker-dealers, custodian or/and trading exchanges.

In addition, the Company will engage various marketing and other service providers in connection with the Offering. These parties will receive customary fees in connection with the provision of their respective services. Datrixo LLC may appoint additional placement agents, advisors and consultants from time to time.

Equity Units, Compensatory Equity

In the aggregate, Datrixo SLLC expects that approximately 1,500 Equity units ("Compensatory Equity") will be issued in the future as compensation to our advisors and for other services, including as compensation to certain of the consultants and advisors, to members of the Datrixo SLLC Advisory Board, and as consideration for marketing, entertainment and/or other fees and expenses incurred in connection with the Offering.

The Company will not generate more than 8,000 Equity units in aggregate, inclusive of equity units issued to investors pursuant to Subscription Agreements and SAFE-T Notes funded by such investors with

cash in accordance with the terms of this Memorandum (“Purchased Equity Units”), Compensatory Equity and other additional Equity units.

Potential Investments

The Holding Company will identify, evaluate and pursue various opportunities for strategic investments, projects or acquisitions to add to the services and expertise it offers to its customers. Any such transaction of importance to Datrixo SLLC’s business, operations or financial condition, or increasing impendency, is or becomes material in nature will be disclosed to investors by a press release, a further supplement to this Memorandum or by other available means of notifying purchasers in accordance with applicable law. Datrixo SLLC’s management exercises substantial discretion in identifying appropriate strategic transactions and negotiating the terms of any of such transactions.

Advisory Board

(1) Datrixo SLLC Advisory Board members might be compensated with “Compensatory Equity.”

(2) Members of the Advisory Board will hold Equity units on the same terms and conditions, and subject to the same limitations and restrictions, as other purchasers of Equity units (shares). In connection with the provision of the advisory services for which compensation is being provided, members of the Advisory Board may engage in promotional activities with respect to the Datrixo SLLC Equity. Members of the Advisory Board are responsible for conducting such promotional activities in accordance with all applicable securities and other laws.

The Planned Token Trading Option

The Company currently intends to leverage its experience in developing and maintaining the Existing Datrixo SLLC software products to develop a trading facility that is capable of (secondary) trading the Datrixo Equity units that are determined to be securities for purposes of U.S. securities laws and might seek to obtain “transfer agent” or “Broker-Dealer” licenses from the SEC.

Initial Launch of the Securities

The Company will enter into the Subscription Agreements and SAFE-T Notes on an ongoing basis until on or about the Expiration Date. However, there can be no assurance that the Equity units will be issued as of such date or at all.

Potential Future Competitive Landscape

The token offerings have, by some accounts, recently surpassed traditional early stage venture capital funding, and, as a result, have drawn a substantial amount of attention, including from U.S. regulators intensely focused on the securities law compliance of such offerings and as consequences - the security equity units & shares that are now a subject of additional attention from the U.S. regulators. There is a deep market need for legitimate venues to support security token offerings. While Datrixo SLLC seeks to be a leader in this space and believes it is well-positioned, the size of the market opportunity will continue to attract potential competitors seeking to provide similar services for securities equity units & shares. As the Company pursues the development of its proposed products, the Company expects to face significant competition from both emerging financial technology companies and established market participants.

Prior Agreements

Prior to the Offering, the Company had not previously conducted an offering of Subscription

conduct business without inheriting any liabilities from its predecessors.

Legal Proceedings

From time to time, the Company may be involved in legal proceedings. The results of such legal proceedings and claims cannot be predicted with certainty, and regardless of the outcome, legal proceedings could have an adverse impact on the Company's business or the development and production of the Equity units (shares) because of defense and settlement costs, diversion of resources and other factors.

At this time, the Company is not aware of any proceedings against it which are expected to have a material adverse effect on its financial position, operations or ability to consummate the development and production of the Equity units (shares).

Intellectual Property Matters

From time to time, the Company may be the target of patent infringement suits, typically brought by so-called non-practicing entities (commonly known as patent trolls). Although these suits must be taken seriously, and the Company intends to defend itself vigorously if such a case occurs, the court suits involving the non-practicing entities often involve the non-material and or monetary settlements.

At this time, the Company is not aware of any patent infringement suits against it, or contemplated being brought against it, which could have significant effects on its financial position.

Overview of Transfer Restrictions Included in this Memorandum

This Memorandum describes the legal and contractual transfer restrictions applicable to the Securities. Investors should carefully review this Memorandum, including the transfer restrictions described under "Notice to Purchasers" and "Annex: *Terms and Conditions of the Datrixo SLLC Preferred Equity Token*," which contain important information regarding the Securities. Investors should consult with their own legal and financial advisors regarding the transfer restrictions to which they will be bound. The below summary is intended to provide a summary overview of applicable transfer restrictions and are qualified by reference to the transfer restrictions set forth under "Notice to Purchasers" and "Annex: *Terms and Conditions of the Datrixo SLLC Preferred Equity Token*."

For U.S. Investors:

- A Subscription Agreement and SAFE-T Notes are non-transferable.
- Equity units (shares) issued to U.S. persons are not transferable **for one year** from the **(initial issuance/ initial purchase by investor)** Expiration Date, except that, following the establishment of a sufficient process to verify the identity of subsequent equity units (shares) or/ and Token holders in order to ensure AML/KYC/AIS compliance with applicable law (e.g., through the appointment of an SEC-registered transfer agent) and so notifies holders of Equity units (shares) thereof and of any applicable conditions, the Company may permit a Compliant Regulation S Sale. See "Notice to Purchasers" for additional information.
- After one year from the (initial issuance) Expiration Date, Equity units (shares) may **be exchanged for tradable equity units (shares) that can be transferred on designated to exchange listings/ trading systems** if Datrixo Series LLC designates (or creates) a designated trading platform for the Equity units (shares). To Datrixo Series LLC's knowledge, no such platform currently exists to trade a security token, except of OpenFinnace, Coinbase and Gemini.

- **After one year** from the (initial issuance)/Expiration Date, **peer-to-peer transfers will be permitted** if Datrixo SLLC authorizes peer-to-peer transfer and so notifies holders of Equity units (shares) thereof and of any applicable conditions. Datrixo SLLC **plans to authorize peer-to-peer transfers** as long as a sufficient process can be established to verify the identity of the (buyers) subsequent Token holders in order to ensure AML/OFAC compliance for dividend payments and compliance with the applicable law (e.g., through the appointment of an SEC-registered transfer agent). There is no

Confidential - Datrixo SLLC

Page 12 of 23 Datrixo SLLC PPM

guarantee that Datrixo Series LLC will be able to establish such procedures and/or authorize the peer-to-peer transfers.

For non-U.S. Investors:

- A Subscription Agreement or SAFE-T Notes are non-transferable.
- During the initial one-year period from the Expiration Date, Equity units (shares) may not be offered or sold to U.S. persons, but may be transferred in Compliant Regulation S Sales if a designated trading platform exists or peer-to-peer transfers are permitted (see next two bullets).
- Equity units (shares) may be transferred on a designated trading system if Datrixo SLLC designates or creates a designated trading platform for the Equity units (shares).

TERMS OF THE SECURITIES

The summary below describes the principal terms of the Securities. Certain of the provisions described below are subject to important limitations and exceptions. Prospective purchasers should review the Subscription Agreement or SAFE-T Notes in their entirety, and the Token Terms and Conditions. If any of the provisions of the Securities are inconsistent with or contrary to the descriptions or terms in this Memorandum, the terms of the Subscription Agreement, SAFE-T Notes or the Certificate of Formation (as summarized in the Token Terms and Conditions), as applicable, will control. Upon the Equity units (shares)' issuance, the provisions of the Certificate will be amended to contain the complete terms of the Equity units (shares).

Issuer: Datrixo.com, Series LLC.

Securities: A Subscription Agreement or SAFE-T Notes are providing its holder a right to acquire certain Equity units (shares), if issued in the future; and such Equity units (shares), if so issued, might be issued as paper certificates or/ and as ERC-20 (or equivalent) compliant equity units (shares).

Current Offering Size USD \$120,000 with option to upsize to more in the event that there is a sufficient market demand to do so.

Purchasers: Each purchaser of a Subscription Agreement or SAFE-T Notes (a) if in the United States, or a non-U.S. Person (as defined in Regulation S under the Securities Act), must be an accredited investor or qualified purchaser, as defined in Regulation D under the Securities Act or (b) if in an offshore transaction (as defined in Regulation S under the Securities Act), must not be a U.S. Person and must not be purchasing for the account or benefit of a U.S. Person.

Transfer: A Subscription Agreement or SAFE-T Notes may not be resold or transferred under any circumstances.

Equity Units (shares) as Securities: Equity units (shares) will be “Restricted Securities” under Rule 144 under the Securities Act (“**Rule 144**”) and subject to legal, as well as contractual, transfer restrictions. See “Notice to Purchasers” for more information.

In any case, Token holders will not be able to transfer their Equity units (shares) until there is a Designated Exchange or the explicitly authorized peer-to-peer transfers through Datrixo platform. Peer-to-peer transfers will not be permitted unless and until Token holders are notified otherwise by the Company and informed of the requirements and conditions to do so.

Form of Payment for Subscription Agreement or SAFE-T Notes

The purchase price of the Subscription Agreement or SAFE-T Notes will be designated in U.S. dollars. Payment will be accepted in U.S. dollars, ETH, BTC and 20 other US-compliant cryptocurrencies.

Confidential - Datrixo SLLC

Page 13 of 23 Datrixo SLLC PPM

During the period which is expected to commence on December 1, 2020 and to run through, and including, December 31, 2021 (the “***Sale Period***”), the Company will enter into Subscription Agreements with select purchasers **identified by the Company**.

The Subsequent Sale Period may be extended or shortened in the Company’s sole discretion. Any extension or shortening of the Subsequent Sale Period will be announced by press release, a supplement to this Memorandum or other available means of notifying purchasers.

No assurance can be given that each investor that wishes to participate in the Offering will be able to do so, or to do so at the level at which such investor desires. The Company reserves the right to reject any proposed investment in part or in its entirety in its sole discretion.

During the Sale Period, purchasers entered into Subscription Agreements or SAFE-T Notes providing rights to acquire Equity units (shares) at prices of \$150.00 per Token. Although the Company exercised discretion in extending discounts for certain strategic and selected investors, the following illustrative prices were applied:

- after the Company raised \$120,000 and with respect to additional amounts raised up to USD, rights to acquire Equity units (shares) will be generally sold pursuant to Subscription Agreements or SAFE..

Payment Instructions: See Invoices for a description of payment procedures to be followed upon execution of a Subscription Agreement or SAFE-T Notes.

The Token Issuance: Although the Company will use its commercially reasonable efforts to issue the Equity units (shares), it is not required to issue the Equity units (shares), and Subscription Agreement or SAFE-T Notes purchasers will not receive any refund or return of investment in the event that the Equity is not issued.

Upon consummation of the Token issuance, each applicable Subscription Agreement or SAFE-T Notes will immediately terminate.

Subscription Agreement and SAFE-T Notes Limitations: Subscription Agreement or SAFE-T Notes holders are not entitled to vote, receive dividends or be deemed as the holder of capital stock of the Company in their capacity as a Subscription Agreement or SAFE-T Notes holder for any purpose, nor will anything contained in this Memorandum be construed to confer on a Subscription Agreement or SAFE-T Notes holder any of the rights of the stockholder of the Company or any right to vote for the election of directors or upon any matter submitted to stockholders at any meeting thereof, or to give or withhold consent to any corporate action or to receive notice of meetings, or to receive dividends, subscription rights or otherwise. Subscription Agreements and SAFE-T notes are non-transferable.

Forward Contract Tax Treatment: Subscription Agreement and SAFE-T Notes holders will be required to treat

the Subscription Agreements and SAFE-T Notes as prepaid forward contracts for U.S. federal, state and local income taxes, and will not take any position on any tax return, report, statement or tax document that is inconsistent with such treatment.

Token Voting Rights: Equity units (share)s will not have any voting rights except to the extent required by the applicable law.

Dividends: If a Dividend is declared, the Dividend Amount shall be paid within 60 calendar days of the Dividend Declaration Date, *pro rata* to the participating Token holders.

Each Dividend will be paid in U.S. dollars. The Company will be permitted to pay each Dividend in one or any combination of the foregoing methods.

Token Redemption: **The Company has the right to redeem the Equity units (shares)**, in whole or in part, at any time. If fewer than all of the outstanding Equity units (shares) are to be redeemed at any time, the

Confidential - Datrixo SLLC

Page 14 of 23 Datrixo SLLC PPM

Company may choose to redeem the Equity units (shares) proportionally from all Token holders or may choose the Equity units (shares) to be redeemed by lot or by any other equitable method.

Token Liquidation Preference: In the event of any liquidation, dissolution or winding up of the Company, Token holders shall be entitled to receive, prior and in preference to any distribution of any assets or funds of the Company to other holders of the Company's equity except of the government obligations if any.

Effect of Change of Control, Merger, Consolidation and Sale of Assets on Token: The merger or consolidation of the Company with any other company, including a merger in which Token holders receive cash or property for their Equity units (shares), or the sale of all or substantially all of the assets of the Company, or any other change of control of the Company, shall not constitute a Liquidation Event and Token holders shall have no preferential rights in connection therewith except to the extent required by applicable law.

Potential Future Utility Benefits to Token Holders: Token holders shall not be entitled to any utility functionality as part of the Token. Nevertheless, the Company expects to endeavor to provide certain additional benefits to holders of the Equity units (shares) in the future (the "**Discretionary Benefits**"). These will not be a part of the terms and conditions of the Equity units (shares), but rather benefits voluntarily provided by the Company to Token holders. There can be no assurance that the Company will ever offer any Discretionary Benefits.

Amendments: The Company reserves the right to amend the terms of the Securities at any time during the Offering prior to the Expiration Date.

Documentation: To invest, each purchaser will be required to complete such documentation as may be requested by or on behalf of the Company, which may include, without limitation: (1) the execution and delivery of a Subscription Agreement or SAFE-T Notes, (2) the completion of investor qualification requirements and (3) for accredited investors, provision of documents sufficient to enable the verification of such investor's status.

Governing Law: The Subscription Agreements will be governed by the law of the State of Delaware. The Equity units (shares) will be governed by the law of the State of Delaware.

Use of Proceeds: At present, the net proceeds of the Offering are expected to be used for (i) for further development of the portfolio ventures, (ii) the Equity Investments in portfolio ventures; (iii) the future

development of the Equity units (shares), (iv) Ip protection, and (v) general corporate purposes, which may include capital expenditures, acquisitions, debt repayments, salaries, cybersecurity upgrades, augmenting technology, infrastructure and personnel, development of products and services, and short term investments, among other things, (vi) lobbying lawmakers and regulatory authorities for the purpose of bringing about changes to laws and regulations related to the blockchain technologies, particularly in regards to the securities equity shares, and (vii) offering, legal and accounting expenses.

RISK FACTORS

An investment in the Securities involves a high degree of risk. You should consider carefully the risks described below, together with all of the other information contained in this Memorandum, the Subscription Agreement (or SAFE-T Notes) and the Token Terms and Conditions, before making an investment decision. The following risks entail circumstances under which the Company's business, financial condition, results of operations and prospects could suffer.

Risks Related to an Investment in the Securities

There can be no assurance that the Equity shares will ever be issued and, if the Company fails to issue Equity shares, investors have no right to a refund of any portion of their investment.

Confidential - Datrixo SLLC

Page 15 of 23 Datrixo SLLC PPM

While the Company intends to develop Equity units (shares) to be issued to holders of Subscription Agreements or SAFE-T Notes, there can be no assurance that it will do so. Should the Company fail to issue the Equity units (shares), investors will be left with only the preferred units shares (Subscription Agreement or SAFE-T Notes), pursuant to which they will be entitled to rights set forth in the Token Terms and Conditions, as stakeholders and with respect to rights, including with respect to Dividends. Subscription Agreement or SAFE-T Notes holders will have no legal or equitable rights, interests or claims to any specific benefits or assets of the Company. In the event of the Company's failure to issue the Equity units (shares), investors have no right to receive a refund or any return of any portion of their investment. As a result, investors should only invest in a Subscription Agreement or SAFE-T Notes if they are prepared to lose their entire investment.

If Equity units (shares) are issued, the Company does not expect to pay any Dividends for some time into the future and, at issuance, Token ownership will not result in access to any Discretionary Benefits.

If the Company issues Equity units (shares) pursuant to the Subscription Agreements or SAFE-T Notes, the terms of such Equity units (shares) will be set forth in the Certificate of Designation or other documents, as summarized in the Token Terms and Conditions set forth in **Annex**. The Equity units (shares) provide that Dividends payable in-kind, in U.S. Dollars, in the Company's sole discretion, will be paid only out of the funds lawfully available for such payment when consolidated GAAP net income exceeds the Dividend Amount, and only if declared by the Board. The Board has no obligation to declare Dividends.

At issuance, there will be no trading market for the Equity shares, and a trading market may never develop.

If the Equity units (shares) are issued, there will be no trading market available for the Equity units (shares), no Designated Exchange and peer-to-peer transfers will not be permitted unless and until Token holders are notified otherwise by the Company and informed of the requirements to and conditions to do so. As a result of recent regulatory developments, conventional crypto exchanges are currently unwilling to list securities equity shares, such as the Company's Equity tokens. As a result, when the Equity units become transferable, they may only be traded on a very limited range of venues, including U.S. - registered exchanges.

Moreover, even if legally permitted, by purchasing Equity units (shares), Token holders agree to additional

transfer restrictions and shall not be able to effect transfers until such time as the Company informs holders that a Designated Exchange is available or that peer-to-peer transfer processes have been established. As a result, holders of Equity units (shares) should be prepared to hold their Equity units (shares) indefinitely.

In the event that the Equity units (shares) remain untradeable for a significant period of time or indefinitely, the value of the Equity units (shares) would be materially adversely affected.

Regulatory authorities may never permit any Token Trading Systems to become operational.

FINRA and the SEC, would need to permit the third party Token Trading Systems to become operational. If FINRA, the SEC or any other regulatory authority objected to any Token Trading System or to aspects of the Token Trading Systems, such regulatory authorities could prevent the Token Trading Systems from ever becoming operational. The regulatory landscape that we expect to navigate in order to achieve an operational Token Trading System is complex, and Datrixo Series LLC may never be able to do so successfully. Any such regulatory issues would have a material adverse impact on our business.

The potential application of U.S. laws regarding investment securities to the Securities is unclear.

The digital Securities are the novel tool and the application of U.S. federal and state securities laws is unclear in many respects. Because of the differences between the digital Securities and traditional investment securities, there is a risk that issues that might easily be resolved by existing law if traditional securities were involved may not be easily resolved for the Securities.

If the Equity units (shares) ever become transferable, Token transactions may be irreversible, and,

Confidential - Datrixo SLLC

Page 16 of 23 Datrixo SLLC PPM

accordingly, losses due to fraudulent or accidental transactions may not be recoverable. The nature of the Equity units means that any technological difficulties experienced by the Token Trading System, if developed on any of Designated Exchanges may prevent the access or use of a purchaser's Equity units.

Any Designated Exchange, including the Token Trading System, if developed, will be subject to the risk of technological difficulties that may impact trading of the Equity units (shares), which include, without limitation, failures of any blockchain on which the Equity units (shares) or the Designated Exchange relies or the failure of smart contracts to function properly.

There is no assurance that purchasers of the Securities will receive a return on their investment. The

Company's management will have broad discretion over the use of the net proceeds from this Offering.

Holders of the Securities will generally not have voting rights and will generally have no ability to influence the decisions of the Company.

Holders of the Securities have no voting rights, except, with respect to the Equity units (shares), those required by Delaware law. As a result, except with respect to matters required to be submitted to Token holders under Delaware law, all matters submitted to stockholders will be decided by the vote of holders of the Company's capital stock entitled to vote thereon, which shall not include the Securities.

The Securities may be subject to registration under the Exchange Act if the Company has assets above \$10 million and more than 2,000 purchasers participate in the Offering, which would increase the Company's costs and require substantial attention from management.

Purchasers may lack information for monitoring their investment.

The Securities do not have any information rights attached to them (other than certain rights to Company information afforded Token holders under Delaware law), and purchasers may not be able to obtain all the information they would want regarding the Company or the Securities. In particular, investors may not be able to receive information regarding the financial performance of the Company with respect to the ability of the Company to pay Dividends. The Company is not currently registered with the SEC and currently has no periodic reporting requirements. As a result of these difficulties, as well as other uncertainties, a purchaser may not have accurate or accessible information about the Company or the Securities.

The Securities have no history.

The Securities will be newly formed and have no operating history and are entirely novel in type. Investors will not be able to compare them against other like instruments. An investment in the Securities should be evaluated on the basis of the value and prospects of the Equity units (shares), taking into account uncertainties as to the likelihood that the Equity units (shares) will be issued, and of the assessment of the prospects of the Company's business may not prove accurate, and the Company may not achieve its objectives.

The Company does not expect there to be any market makers to develop a trading market in the Equity.

Most securities that are publicly traded in the United States have one or more broker-dealers acting as "market makers" for the security. A market maker is a firm that stands ready to buy and sell the security on a regular and continuous basis at publicly quoted prices. In the event that any Designated Exchange is created or developed, the Company does not believe that the Securities will have any market makers, which could contribute to a lack of liquidity in the Securities, and could have a material adverse effect on holders' ability to trade the Securities.

Only certain persons and entities are able to acquire Securities.

Confidential - Datrixo SLLC

Page 17 of 23 Datrixo SLLC PPM

The Equity shares are equity securities and are subordinate to existing and future indebtedness of the Company.

Equity units are preferred equity interests in the Company. This means that the Equity units will rank junior to all existing and future indebtedness of the Company and to other non-equity claims on the Company with respect to assets available to satisfy claims on the Company, including claims in liquidation. Additionally, unlike indebtedness, where principal and interest customarily are payable on specified due dates, in the case of Equity units, (1) dividends are payable only when, as, and if declared by the Board, (2) dividends will not accumulate if they are not declared, and (3) because the Company is a Delaware corporation, the Company will be subject to restrictions on Dividend payments and redemption payments out of lawfully available funds.

The Equity units may have lower priority to certain rights and preferences than future equity units or preferred stock of the Company.

The Equity units may have lower priority to certain rights and preferences than other equity units and/or preferred stock that the Company issues in the future, which by its terms is expressly higher priority than the Equity units.

The blockchain is a new and quickly changing industry, the equity units are subject to a variety of factors that are difficult to evaluate. The slowing or stopping of the development or acceptance of blockchain

networks and blockchain assets would have an adverse material effect on the successful development and adoption of the Equity units.

The growth of the blockchain industry in general, as well as the blockchain networks on which the Equity units will rely, is subject to a high degree of uncertainty. The factors affecting the further development of the crypto security industry, as well as blockchain networks, include, without limitation:

- worldwide growth in the adoption and use of crypto securities and other blockchain technologies;
- government and quasi-government regulation of cryptocurrencies, crypto securities and other blockchain assets and their use, or restrictions on or regulation of access to and operation of blockchain networks or similar systems;
- the maintenance and development of the open-source software protocols of cryptocurrency or crypto securities networks;
- the availability and popularity of other forms or methods of buying and selling goods and services, or trading assets including new means of using government-backed currencies or existing networks;
- general economic conditions and the regulatory environment relating to cryptocurrencies and crypto securities; and
- a decline in the popularity or acceptance of cryptocurrencies or other blockchain-based equity units (shares) would adversely affect the Company's results of operations.

The cryptocurrency and crypto securities industries as a whole have been characterized by rapid changes and innovations and are constantly evolving. Although they have experienced significant growth in recent years, the slowing or stopping of the development, general acceptance and adoption and usage of blockchain networks and blockchain assets may deter or delay the acceptance and adoption of the Equity shares.

The prices of digital assets are extremely volatile. Fluctuations in the price of digital assets could materially and adversely affect the Company's business, and the Equity units (shares) may also be subject to significant price volatility.

Risks Related to the Company's Business

Confidential - Datrixo SLLC

Page 18 of 23 Datrixo SLLC PPM

The Company has limited operating history, which makes it hard to evaluate its ability to generate revenue through operations.

The Company was formed in 2015 and registered in 2020 to develop AI technology and AI venture portfolio as part of the Datrixo Series LLC initiative. The Company's limited operating history may make it difficult to evaluate its current business and future prospects.

The Company has, to date, relied upon funding from its founders and if such fundings were not provided, it would have an adverse impact on the Company's operations and financial conditions.

Company does not have any legally binding commitment from any person to contribute additional capital or to make any loan to it. If founders were to be unable or unwilling to fund the Company's operations in the future, or if Datrixo were to become the subject of a bankruptcy or other insolvency proceeding, the Company's operations and financial conditions would be materially adversely impacted.

There is no assurance that the Company will be able to continue as a going concern.

The Company and its portfolio companies have generated limited or no revenue.

Certain of our officers and directors participate in other business ventures and, as a result, may have limited time to devote to our business or may compete with the Company.

The Company is a subject to the risk of possibly becoming an investment company under the Investment Company Act.

The Investment Company Act regulates certain companies that invest in, hold or trade securities. As a result of a portion of the Company's assets might consist of minority investment positions, it runs the risk of inadvertently becoming an investment company, which would require the Company to register under the Investment Company Act.

USE OF PROCEEDS

The Company's management will have broad discretion in the application of the net proceeds of this Offering and investors will have to rely upon their judgment.

PARTNERS AND MANAGEMENT

Milla Bakhareva, a partner and manager

Milla founded Datrixo Series LLC., the first company to launch a portfolio of applied AI ventures, the first company to offer its tokenized equity securities, the first company to monitor its Corporate and Holding Value through the monitoring of the tokenized equity securities that will be traded exclusively on an alternative trading systems and tracked on a distributed ledger.

Yuri Nikiforov, a partner and manager

Yuri co-founded Datrixo Series LLC.

Artem Nabirkin, a partner and advisor

In 2017, Artem co-founded CA, is a stakeholder of Hpredit and Brocco.

Alexey Malashkevich, a partner and advisor

In early 2018, Alexey became a partner of Datrixo..

Jason Schapiro, a partner and advisor

In 2017, Jason became a partner in Datrixo.

Michael Kapilkov, a partner, advisor in CA

In 2018, Michael became a partner in Datrixo.

Abhibroto Roy, manager

In late 2018, Abhi joined Datrixo as its marketing manager.

PLAN OF DISTRIBUTION

Subscription Agreement and SAFE-T Notes Purchaser Qualifications

Only persons of funds of adequate financial means who have no need for present liquidity with respect to this investment should consider purchasing the Subscription Agreement or SAFE-T notes offered hereby because: (i) an investment in the Securities involves a number of significant risks (See “Risk Factors”); (ii) the Subscription Agreements and SAFE-T notes are not transferable; and (iii) there is no established trading market for the Equity units (shares) and it is possible that one will never develop and the Equity units (shares) will never be tradeable or transferable. This Offering is being made as a private offering that is exempt from registration under the Securities Act and applicable state securities laws.

This Offering is limited solely to purchasers (1) who are “accredited investors” or qualified purchasers as defined in Regulation D or (2) who are not “U.S. persons,” as defined in Regulation S, in offshore transactions.

To be eligible to participate in the Offering, you will be required to represent to the Company that you represent the Fund or you are (1) an accredited investor under Regulation D and to provide certain documentation in support of such representation (such required documentation to be decided by the Company in its sole discretion), or (2) a non-U.S. person under Regulation S purchasing in an offshore transaction. You must also represent in writing that you are purchasing the Subscription Agreement or SAFE-T notes for your own account, for the qualified Fund, that Datrixo Series LLC has invited to participate and not for the account of others and not with a view to re-selling or distributing Securities in the next 12 month after the purchase.

Other Requirements

In addition to submitting documentation to confirm their status as “accredited investors” or non- “U.S. Persons,” all potential purchasers of the Equity units (shares) will need to complete requisite know-your customer and anti-money laundering procedures to execute a Subscription Agreement or SAFE-T Notes.

The USA PATRIOT Act What is money laundering? How big is the problem and why is it important?

The USA PATRIOT Act is designed to detect, deter and punish terrorists in the United States and abroad. The Act imposes anti-money laundering requirements on brokerage firms and financial institutions. April 24, 2002,

Confidential - Datrixo SLLC

all United States brokerage firms have been required to have comprehensive anti-money laundering programs in effect. To help you understand these efforts, the Company wants to provide you with some information about money laundering and the Company’s efforts to help implement the USA PATRIOT Act. Money laundering is the process of disguising illegally obtained money so that the funds appear to come from legitimate sources or activities. Money laundering occurs in connection with a wide variety of crimes, including illegal arms sales, drug trafficking, robbery, fraud, racketeering and terrorism.

The use of the United States financial system by criminals to facilitate terrorism or other crimes could taint its

financial markets. According to the United States State Department, one recent estimate puts the amount of worldwide money laundering activity at \$1 trillion a year.

You should check the Office of Foreign Assets Control (the “OFAC”) website at <http://www.treas.gov/ofac> before making the following representations:

(i) you represent that the amounts invested by you in this Offering were not and are not directly or indirectly derived from any activities that contravene Federal, state or international laws and regulations, including anti-money laundering laws and regulations. Federal regulations and Executive Orders administered by the OFAC prohibit, among other things, the engagement in transactions with, and the provision of services to, certain foreign countries, territories, entities and individuals. The lists of the OFAC-prohibited countries, territories, individuals and entities can be found on the OFAC website at <http://www.treas.gov/ofac>;

(ii) you represent and warrant that none of: (1) you; (2) any person controlling or controlled by you; (3) if you are a privately-held entity, any person having a beneficial interest in you; or (4) any person for whom you are acting as agent or nominee in connection with this investment is a country, territory, entity or individual named on an OFAC list, or a person or entity prohibited under the OFAC Programs. Please be advised that the Company may not accept any subscription amounts from a prospective purchaser if such purchasers cannot make the representation set forth in the preceding sentence. You agree to promptly notify the Company should you become aware of any change in the information set forth in any of these representations. You are advised that, by law, the Company may be obligated to “freeze the account” of any purchaser, either by prohibiting additional subscriptions from it, declining any redemption requests and/or segregating the assets in the account in compliance with governmental regulations, and that the Company may also be required to report such action and to disclose such purchaser’s identity to the OFAC;

(iii) you represent and warrant that none of: (1) you; (2) any person controlling or controlled by you; (3) if you are a privately-held entity, any person having a beneficial interest in you; or (4) any person for whom you are acting as agent or nominee in connection with this investment is a senior foreign political or any immediate family member or close associated of a senior foreign political figure, as such terms are defined in the footnotes below; and

(iv) if you are affiliated with a non-U.S. banking institution (a “**Foreign Bank**”), or if you receive deposits from, make payments on behalf of, or handle other financial transactions related to a Foreign Bank, you represent and warrant to the Company that: (1) the Foreign Bank has a fixed address, and not solely an electronic address, in a country in which the Foreign Bank is authorized to conduct banking activities; (2) the Foreign Bank maintains operating records

The equity Token Issuance

If developed by the Company, the Equity units (shares) will be issued to holders of the Subscription Agreements or SAFE-T notes in a transaction exempted from the registration requirements of the Securities Act pursuant to Section 3(a)(9) of the Securities Act or another available exemption. Upon consummation of

Confidential - Datrixo SLLC

the token issuance pursuant to such exemption, each applicable Subscription Agreement or SAFE-T Notes will immediately terminate in accordance with its terms. While the Company will use its commercially reasonable efforts to create the Equity units (shares), no assurance can be given that they will ever be issued or that the

Token Trading System will be developed.

On the Token Issuance Date, the Equity units (shares) will be minted and delivered to Subscription Agreement or SAFE-T Notes holders according to the terms specific to their Subscription Agreement or SAFE-T Notes. The equity units (shares) will be delivered to either a wallet address provided upon payment contribution or will be made available by other means.

NOTICE TO PURCHASERS

This Offering has not been registered or qualified under the securities laws of any jurisdiction anywhere in the world. The Subscription Agreements or SAFE-T Notes and the Equity units (shares), if issued, are being offered and sold only in jurisdictions where such registration or qualification is not required, including pursuant to applicable exemptions that generally limit the purchasers who are eligible to purchase the Subscription Agreements or SAFE-T Notes and the Equity units (shares), if issued, and that restrict the Securities' resale.

Holders of the Subscription Agreements or SAFE-T Notes may never offer, sell, assign, transfer, pledge, encumber or otherwise dispose of the Subscription Agreements or SAFE-T Notes. The Equity units (shares) may not be offered, sold, assigned, transferred, pledged, encumbered or otherwise disposed of except as permitted under applicable securities laws and the additional restrictions imposed on the Equity units (shares) hereunder. In addition, Token holders will not be able to transfer their Equity units (shares) until the Company designates or creates a Designated Exchange or notifies Token holders that peer-to-peer transfers will be permitted and provides holders with the requirements and conditions to effect peer-to-peer transfers.

Furthermore, there can be no assurance that any Designated Exchange will be chosen or created or that all Token holders will have access to a Designated Exchange or that peer-to-peer transfers will ever be permitted.

Notice to Purchasers

Neither the Subscription Agreements or SAFE-T Notes nor the Equity units (shares), if issued, have been registered under the Securities Act or any securities laws of any state and, unless so registered, the Equity units (shares) may not be offered or sold except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act and such other securities laws. Accordingly, the Subscription Agreements or SAFE-T Notes are being initially offered and sold only (1) to "accredited investors" (as defined under Regulation D), in each case, in a private transaction in reliance on, and in compliance with, the exemption from the registration requirements of the Securities Act provided by Rule 506(c) of Regulation D under the Securities Act, and (2) outside the United States to non-U.S. persons in offshore transactions in reliance upon Regulation S under the Securities Act.

As used herein, the terms "United States," "U.S. person" and "offshore transactions" have the meanings given to them in Regulation S under the Securities Act.

Digital Notices

The Equity units (shares) are digital instruments and, as such, will not contain legends. However, purchasers (including secondary purchasers) of Equity units (shares) will be required to be presented with the information required to be provided to such holders pursuant to and in the manner contemplated by Section 202 and Section 151(f) of the Delaware General Corporation Law regarding, among other things, restrictions

on transfer of the Equity units (shares), including the legend set forth in paragraph 9 above, and, at a minimum, must affirmatively signal their understanding of the information and provide the Company with certain representations on their investor status and location. The Token Terms and Conditions will be presented at that time as well.

SELLING RESTRICTIONS

No action may be taken in any jurisdiction that would permit a public offering of the Securities or the possession, circulation or distribution of this Memorandum in any jurisdiction where action for that purpose is required. Accordingly, the Equity units (shares) may not be offered or sold, directly or indirectly, and neither this Memorandum nor any other offering material or advertisements in connection with the Equity units (shares) may be distributed or published in or from any country or jurisdiction except under circumstances that will result in compliance with any applicable rules and regulations of any such country or jurisdiction.

Confidential - Datrixo SLLC
